Worcester-Bosch Cdi Range

Greenstar Cdi at a glance

The Greenstar Cdi boiler series can cut heating and hot water bills by up to 30 %. Greenstar condensing boilers deliver this energy saving performance by recycling exhaust gases to extract and re-use latent heat – a highly efficient use of energy, which also significantly reduces carbon dioxide in the atmosphere.

Features on Cdi Range

- Sedbuk band A rated
- Hot water pre heat facility
- Condenses in both central heating & hot water
- Built in Frost protection
- Anti pump seizure protection
- Anti cycle control
- Holiday function
- Wide range of programmers
- Compact dimensions
- Low Nox and Co2 emissions

Technical Data	30	37	42
Sedbuk rating	A	A	A
Hot water flow rate @ 35 ° C rise – litre per minute	13.1	15.2	17.2
Output to central heating – max	30 kW	30 kW	30 kW
Hot water temperature control	YES	YES	YES
Central heating temperature control	YES	YES	YES
Hot water keep hot facility	YES	YES	YES
Height – mm	760 mm		
Width – mm	440 mm		
Depth – mm	360 mm
