

What are these recent changes then ?

As from the 1st April 2009 the familiar logo of Corgi will no longer be in use for gas safety in the United Kingdom.

Gas Safe Register is the new scheme being run by the government for all gas matters that were once the responsibility of Corgi.

Twenty Four Seven has joined the Gas Safe Register.

Our registration number is **195 943**.

Do not allow any body to work on gas appliances unless they are registered with gas Safe Register as it will now be illegal.

Full details can be obtained from www.gassaferegister.co.uk

Or use our link from about us page
